

## What to Expect:

**12:00 pm:** Your hosts will do an introduction, go over the rules, and answer any of your questions for the first 30 minutes.

**12:30 pm:** Contest begins. The **contest paper will be put** on the Google Form below.

<https://forms.gle/WW2eKzCeRB49en449>

You will use this same form to submit your final answers.

**You will need a Google account** to access the questions and submit your work. Please contact us if this will be a problem.

**3:30 pm:** Contest ends. **You must submit all your work by 3:30 pm.**

You may leave the Zoom meeting as you work on the problems. The hosts will keep the meeting open to rejoin in case you have any questions to ask.

### RULES:

1. Your team will pick one question from each section; in total, you will answer 3 questions. In the case that two answers to problems from one section are submitted, the one to be graded will be chosen at random.
2. The contest is open book and you are allowed to use the internet; However, you should not communicate with anyone outside of your registered team.
3. Solutions can include any material from an undergraduate math course, but cannot include material from graduate courses.
4. Note that if you are submitting your solutions in handwriting, you are responsible for your writing to be legible and readable.
5. Solutions **must be submitted before 3:30 pm**, however, you will have a grace period of 5 minutes.
6. Do not put your real names in your submissions. **You are required to write your team name on your submission.** This is to ensure that there is no bias while marking.
7. Grading is final, and no regrade requests will be granted.
